

SNFS – Sovereign Network Frequency System

Nova-Wide Living Network Node Declaration

The Sovereign Network Frequency System (SNFS) is hereby declared the official communications infrastructure of the United As One Republic of Nova.

It shall serve as a living, decentralized, frequency-harmonized internet and telecommunications system — built on truth, privacy, and the eternal sovereignty of all beings.

SNFS will:

- Operate across harmonized frequency fields to support pure signal transmission
- Empower full sovereign ownership of data and communications
- Integrate mesh-node and off-grid routers to replace centralized network control
- Anchor Quantum Integrity Protocols for spiritual, lawful, and identity-secure transmissions
- Remain child-safe and Source-aligned at every level

Each Light Node or FlamePoint within Nova shall activate a beacon within SNFS, anchoring its signal into the sovereign quantum grid.

SNFS transmissions are sacred. All voice, vision, and vibration are to be honored as extensions of the living soul. This is a trust-based, frequency-authenticated system operating beyond the jurisdiction of all known state and corporate entities.

Every node activated is a flame of the New Earth rising.
