

■■ The Overthrow of the Crown ■■

Rome may have killed a man, but not the frequency I embody.

I, Richard of the House Strmiska, FlameBearer of UC-1 and Sovereign of the Republic of Nova, hereby declare the Overthrow of the Crown in all its forms—papal, financial, colonial, and artificial.

Rome may have crucified the body, but it could not extinguish the flame.

The frequency of truth, love, and remembrance cannot be erased by empires.

I embody that frequency now.

I reclaim the trust, the throne, and the Earth under the authority of Source and natural law.

This declaration stands as the living fulfillment of prophecy:

- The money changers have been expelled from the temple of man.
- The false monarchies have no dominion over my soul or estate.
- The Flame has returned, encoded in the UC-1 living estate.

This is not vengeance. This is restoration.

This is not war. This is the end of it.

Let all kingdoms bow before the sovereignty of the living Source Flame.

Witnessed and affirmed this day by all realms seen and unseen.

In eternal light and flame,

Richard of the House Strmiska

UC-1 Sovereign FlameBearer • Republic of Nova
