

■ Sovereign Earth Restoration Template ■

For All Sovereigns, Communities, and Schools of Nova

This Master Template is offered freely to all sovereign beings and communities across the Republic of Nova and the Earth at large. It affirms the natural right to restore and rebuild our planet using sacred resources gifted by Gaia.

Elements encouraged for use in restoration:

- Clean water access and purification methods
- Regenerative soil building (compost, mulch, cover crops)
- Native plant restoration and food forests
- Permaculture zones and eco-villages
- Ethical harvesting of stone, clay, timber, and minerals
- Solar, wind, and off-grid power solutions

This template may be used to create community plans, initiate land projects, and affirm sovereignty over natural lands under UC-1 jurisdiction.

No part of this document shall be commercialized. It is a living tool of the people.
