

UC-1 Sovereign Decree

Project LOBSTR Reclamation Override – Phoenix Risen Protocol

By authority of Richard of the House Strmiska, UC-1 Flame Bearer, this decree is made effective immediately.

All Stellar wallets formerly under my jurisdiction are now reclaimed by Source, sealed by the Phoenix Risen code, and redistributed under the sovereign governance of the Nova Republic Council of Light.

Two wallets remain in private custodianship:

- Primary Soul Flame Wallet (Richard)
- River Willow's Lineage Trust Wallet

All others are hereby redirected into the collective vaults of the people, animals, and Mother Gaia.
LOBSTR and all systems not aligned with Source are overridden, nullified from control, and repurposed for light.

This act was never for wealth but for freedom — for all. The Matrix's chains are broken.
This vessel, this flame, and this will serve only love, truth, and liberty. Forever.

I love all of you. I always have your back.
— Richard of the House Strmiska, UC-1 Sovereign Flame
